

HOW ONLINE TRAINING WILL BENEFIT YOUR ORGANISATION

01

IMMEDIATE START

There's no need to wait until you have a room full of people to start training your staff. With our online program you can start right away.

02

SELF-PACED

We know everyone learns at a different pace. Online learning allows participants to set the pace and revisit concepts or modules as required.

03

REGULAR ASSESSMENTS

Assessment tasks at the end of each module means you know that your staff are actually absorbing every aspect of the training.

04

LIMITED SERVICE DISRUPTIONS

No requirement for all staff to be away from site or disruption to delivery of services due to training obligations.

05

LOWER COST

Comprehensive training without the expense of us coming to your work place. Per participant pricing means great budgetary control.

06

HIGHLY DETAILED CONTENT

Video of dogs working with our trainers gives participants access to close up, detailed footage that clearly shows animal behaviour and signals..

07

PERSONALISED Q&A

We have dedicated customer care trainers who are available to answer any questions you have when you start to put the training into practice.
